GRIESBACH'S CAREER
IN HIS OWN HANDS

Even Mr. Griesbach's own friends are now more than half convinced that he is not trying to fight in this campaign, but is merely a dummy antagonist putting up a shadow fight. There are many circumstances to support this suspicion. Mr. Griesbach has in his power to clear himself, show that he has been honest with his party and satisfy his friends by getting out and making a fight. Politically speaking, his possibilities of a career are in his own hands at the Thistle rink meeting tonight.

CANADIAN NORTHERN NOT LACKING IN ASSURANCE

The latest phase of the railway situation in the province of Alberta is the application of the Canadian Northern Western, which is the stage name for the Canadian Northern's Alberta branch lines, for a charter for a branch from the Athabasca Landing line to Fort McMurray covering almost foot for foot the original route of the ill-starred Great Waterways.

The advertisement of the application, of course, is couched in the usual legal dialect and does not explain anything. It might mean that the C. N. R. is putting in an application for a charter for the purpose of more effectively blocking entrance to the country which they have won through devious political methods, or it might mean that the C. N. R. actually intends to build a road to open up the country which they took away from the Waterways.

But the most startling feature of the application is its effrontery. With Frank Oliver, who is regarded in the public mind as having been their agent in the wrecking of the Alberta government for the purpose of dissolving the Waterways agreement, still before the public in pursuit of office, with the Waterways' action against the province of Alberta still in the courts, and with the whole circumstances surrounding the C. N. R.'s invasion into the political affairs of the province still so vivid in the minds of the general public, the Canadian Northern displays a high and mighty frame of mind when it brings on its application at this time. Certainly the Canadian Northern is not lacking in the quality which the Londoners call assurance.

THE PROGRESS OF THE FLYING MACHINE

Following Atwood's great flight from St. Louis to New York comes forward a California youth, who proposes to leave San Francisco during the next few days on an aerial trip to New York to win a premium of \$50,000 offered by a New York newspaper to the first aviator who successfully crosses the continent.

Atwood's flight and Fowler's proposed attempt to cross the continent give some idea of the rapidity with which the navigation of the air is developing. Only a few months ago the first flight across the English channel attracted world-wide attention. Now a flight has been made half-way across the American continent and an attempt is to be made to cross the continent from ocean to ocean. In Europe 500 to 1000 mile flights have been made by many aviators, France and Germany have been crossed and recrossed, Great Britain has been circled, airmen in flocks have crossed the English channel and the dispatches even tell of the ambition of Germany to have an air regiment of 10,000 flyers who will do all the scouting and guerrilla work for the German army.

When measured by years, the progress of the automobile, the steam engine or the electric motor was never anything like as fast as the progress of the flying machine. The navigation of the air may now be regarded as something that is here to stay and the development of the future may be quite well expected to be even more rapid than has been the development of the past few years.

PARLIAMENT OF LABOR WORTHY OF ATTENTION

In the Dominion Trades and Labor congress which meets in Calgary today there convenes the most important labor parliament ever brought together in Canada and a body whose deliberations may be regarded as the expression of the sentiments of organized labor for the Dominion of Canada.

The influence of labor in the Dominion of Canada, while not so great as in Great Britain or European countries, or even in the United States, is a rapidly growing influence and one which in the very near future is going to make itself felt. The tendency of labor to get onto common ground with the farmers and the evident desire of the farmers, as expressed through the resolutions adopted at the various annual conventions of their organizations, makes possible the launching of an entirely new and certainly very powerful political force in the Dominion, a new force which would not be controllable by the machine politicians of the old parties and a force which would have for its object the promotion of all the radical doctrines of politics.

Something of this nature may be the outcome of the meeting in Calgary, or at least some move in that direction may be undertaken, although it is not on the slate. For this reason the session of the Dominion Trades congress in Calgary is worth keeping an eye on.

THE EDMONTON CAPITAL
The Elixir of Life

By Thomas Tappan.

A recent news item tells us that a man committed suicide because he failed to find the elixir of life by mixing fine wines.

This story may not be true, but it is true that many a man has tried to find something that will give him youth and give it to him day after day, probably in seeking perpetual youth no man expects to live forever, but he expects to live young every day.

This is not a foolish scheme; it is a very wise one. Every man can be young every day if he wants to; but not by mixing fine wines; but by mixing anything, in fact.

The source of youth is not in bottles, springs, fountains, wines or sanctuaries. It is in the heart. Of course, everybody knows this; and yet few believe it. But it is true, nevertheless.

There is a queer character who lives not very many miles from a certain place. He is an old man in years and a very young man in all he does; and particularly in all he thinks.

He keeps a horse and cow, a few sheep and hens; his place is big enough for his needs, and he has no money except a little for carns, not and then, by selling eggs, vegetables and milk, or doing a day's work for somebody else.

And there are several things he has NOT. He has no worry, fear, sickness, anxiety or ill-humors. He is a good neighbor, helps anybody who can help, sings his own tune, and if anybody else wants to sing, he keeps still until the other man is done.

I said to him one day, "You are not more than fifty, are you?"

"Only thirty years more than fifty by my birthday," he said, "but exactly; and about thirty years less by my feelings—this is trueness."

"Well," I said, "how do you keep to yourself?"

"Here's my answer to that," he replied, pulling a raised looking little book from his pocket and handing it to me.

On the cover he had written, "Talk With My Conscience."

"What is it all about?" I asked.

"Just this," he said, "I never do anything I am in doubt about without talking it over with myself. I feel like a pulley trying my own wheel. If I feel like saying, 'Don't do it,' I quit. If I feel like saying, 'Go ahead,' I begin and never let up."

"When was a young man about the world, this used to help me a lot more than it does now. There were lots of temptations in those days, and I used to get my head in the mill, and I used to feel like a pulley trying my own wheel. But I soon found that, if I felt like saying, 'Don't do it,' I quit. If I feel like saying, 'Go ahead,' I begin and never let up."

AS TO JEALOUSY
By Elbert Hubbard.

Copyright, 1911, by International News Service.

I once heard Mr. James Bryce Howard, lecturer on pathology at Bellevue, make a statement to the effect that cancer was caused by jealousy. This argument was something like this:

The elements of good will, when the mind is calm, the circulation is complete, strong and natural, the secretions are active, the pores open, and the glands do their perfect work. Let a spasm of hate and fear sweep over a person and the blood is thrown into solid form and then dies down until you can scarcely detect its flow. The skin grows cold, the pores close, the secretions cease as though a stricture of death had swept over the body. There is congestion, then fever, and nature working hard to restore an equilibrium. That is just the way cancer grows. There is a stoppage of the blood and nature tries to clear it away by sending more blood to the part. This increased nutrition causes a growth in form, and nature, who works always according to general laws, not caring for the individual, kills the patient in an effort to cure him.

There is no form of vice that will cause a suffering so terrible as jealousy. It grows by what it feeds upon—suspicion! Ah, it clutches for it, even though it knows it is poisoning itself. It lies in wait, it watches, it listens, and finding the proof it wants, suffers more than ever. It suffers if it finds proof and suffers if it doesn't.

For bodily pain nature is pitiful and quickly sends its remedy. But for the woes of the heart there is only lingering torture—nights of tossing unrest and days of leaden misery. In her bewilderment by death there some comes calm and sweet peace in thoughts of the virtues of the loved one gone. As I consider and dwell upon the dead that was in the dead, that in jealousy we think only of the wound in the living, it is a blessing, withering love toward that which we have lost. It corrodes the heart and makes a man a living hell. It turns a friendship of hate—hate for the woman he loves, hate for the suspected person and hate for himself. That is why it stings so—the jealous person cannot justify himself. And so those who are not jealous, jealous often they are not so at all and avoid the idea of hysterical emphasis.

So far, the passion of jealousy has never been mastered. Many men have written upon it, and all they attempt to do is to describe its manifestations.

MEETING TO FORM RUGBY CLUB IN Y. M. C. A. TONIGHT

Association Has Husky Bunch of Fellows, Who Will Fight All the Time

To set their Husky Club on a good working basis with a manager and all the other necessary officers there will be a meeting of those interested in the game in the Y. M. C. A. this evening. The practice on Saturday was well attended and the boys showed good form. With a few weeks to learn a few plays and get into condition their team should be one of the strongest in the city league.

The Calgary league seems to be working along fairly well and when the two champion teams meet this fall there is bound to be a clash. The Edmonton Eskimos had a strong team, the Y. M. C. A. has a good husky outfit and the University students have their usual strong team. The Eskimos are trying to arrange a practice game with the Y. M. C. A. for next Saturday.

SPECIAL MEETING

Toronto, Ont., Sept. 11.—The situation created by President Murphy's decision that the Montreal-Salt Lake Labor Day game must be played was considerably cleared Saturday night when the commission announced that the Montreal-Toronto and Toronto clubs had written President Murphy requesting a special meeting of the N. L. U. to discuss the matter. President Murphy had previously refused the Toronto's request for a meeting, claiming that it was unconstitutional, but as the needed number of clubs have asked for a meeting it will be held at the Windsor hotel, Montreal, probably on Monday night.

The YALE HOTEL CAFE IS NOW OPEN

MR. ROBERT McDONALD is now prepared to serve the citizens of Edmonton with the best obtainable food, cooked by a first-class chef and on the European plan.

AMERICANS MAKE CLEAN SWEEP IN TENNIS TOURNEY

Courts Were in Perfect Condition but British Players Were Unable to Hold the Pace—Some Matches Were Exceedingly Close

New York, Sept. 11.—America scored heavily yesterday in the first of the series of preliminary matches to determine whether players of this country or Great Britain shall constitute the challenge team for the Davis International Lawn Tennis Cup, now held by Australia. Two matches were played on the turf courts of the West Side Tennis Club and both were won by Americans, against whom were pitted two of the foremost British players.

The matches were close, each going the full limit of five sets. W. A. Larned, the seven time champion of America, defeated L. P. Dixon, British Isles, 6-3, 2-6, 6-3, 3-6 and 7-5. In the other match, M. E. McLaughlin of California defeated V. H. Lowe, British Isles, 7-5, 6-1, 1-6, 1-6 and 6-3.

These victories gave the Americans two points out of the series of five matches, of which the doubles follow on Monday and the other singles on Tuesday. The team of the winning

national will go to Australia. The conditions yesterday were not of the best. Rain began just before the men took their nets, but it did not diminish the gallery which was up to the capacity of the grounds, 1,500. Both of the matches were won through sensational pull ups by the Americans at the eleventh hour. The Britons surprised their opponents by their steadiness and resourcefulness at every stage.

Dixon to the amazement of the crowd, successfully passed Larned at every attempt of the latter to gain the position at the net until the final set of the match. He put plenty of sting into his shots and worked Larned's powerful strength across the court for points. This compelled the American to play a back court tennis game, at which the Briton was distinctly the better. In the fifth set, Larned got a bad decision on his base line which upset him and Dixon went ahead to a lead of 5-2 and 30 all. Then Larned set sail for the net and with wonderful playing reeled off five straight games and the match. It was so close, however, that the points tallied 15-6 to 15-5.

THE CHARITY SHIELD FINAL WILL BE PLAYED THIS EVENING

Calgary Callies Won from Lethbridge—Line Up for Game Tonight

The final game of the series for the United Aid Charity Shield will be played on a Diamond Park tonight, the contestants being Swifts and St. Georges. Most of the games for this trophy have been exceptionally close and the final promises to be the most fiercely contested of the series. The city league champions have not lost a game this year but the Saints have given them several close runs and speculation on the outcome of the game is free. In addition to being a good game it will enable the fans to get a line on the team which will play Calgary for the provincial championship. The Calgary Callies will have to play the Edmonton Swifts from either in Edmonton or in Calgary or possible return games.

St. Georges
E. Parker, goal; Andrews and Whitehead, back 1; Jennings, Farwell, Duckworth, half-backs; Gathorne, Coward, A. Parker, Thompson, S. Jennings, forwards.

Swifts
Phillips, goal; Towns and Moffatt, back 1; Alexander, Greaves, McGinnick; Bisset, Thompson, Patterson, Barton, Lloyd and Munro, forwards.

CALGARY WON

(Special to the Capital)
Calgary, Sept. 11.—The Calgary Callies won from the Lethbridge Swifts by a score of five to nil. The game was fiercely contested at times but during the last twenty minutes of time the Calgary team simply ran away with their opponents, showing through all their scores in that time. Outside of a few occasions when both teams worked hard, play was loose.

VANCOUVER WINS FIRST GAME OF FINAL SERIES

New Westminster is Defeated on Their Own Grounds by Vancouver by a Score of 4 to 3—Managers Strenuously Deny Any Agreement

Vancouver, B.C., Sept. 11.—With a lead score of three-quarters time, Vancouver today outplayed Westminster in the first quarter of a gruelling game of lacrosse at Queens Park. The Westminster led Swifts of Fraser River town failed to come back for their accustomed whirlwind finish, though it was on their own ground and the final round was fought in a rain-storm. The score was 3 to 2 in favor of Vancouver at three-quarters time, and in the last span each team scored one. During the last eight minutes Westminster tried desperately to score, but Vancouver played rag in better than usual fashion and successfully

stalled until the final whistle blew. The final score was 4 to 3. Though Vancouver had the better of the play in about the proportion that the score would indicate the result gave no very definite line on how the Minto cup will go.

The total score of today's game and that of next Saturday's covers the possession of the coveted cup, but a lead of one goal today is not very conclusive. On the other hand Westminster will be playing next week in Vancouver which is a distinct disadvantage to the home loving Salmon chieftains.

The attendance today did not indicate a fixture upon which the Minto cup depended. The crowd was barely half as large as on Labor day. Before the game Manager Charles Welsh and Con Jones approached the Press representatives and passed a few caustic comments upon the rumors which have been circulated regarding a "franchise" between the clubs. Jones offered to give \$5,000 to any one who could prove that such was the case.

Both clubs made changes in line-up.

There's a Buckley for every type of countenance---and in every Buckley Hat there is a guarantee.

On the score of style alone, the Buckley might well claim your choice in hats—not another hat made includes so wide a range of becoming styles in men's headgear.

Produced from American blocks, in a modern English factory, and made by Union workmen, the Buckley has a style and distinction all its own.

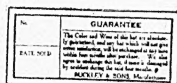

As for quality—wear-resistance—well, can you remain in doubt after reading the wide-open Buckley guarantee? Read it again—do you think a manufacturer would dare issue such a sweeping guarantee if he didn't thoroughly believe in his pro-

duct—if he didn't know his hats would stand the most arduous use and the roughest weather?

And, by way of proving that there's to be no quibbling or red tape about the exchange—to convince you that the guarantee ensures a new hat without embarrassing question-asking from the hat merchant—there's that "accident clause" which says:

"We agree to exchange this hat, if same is damaged by accident during the next four months."

The Buckley is on sale at the best hat shops. Price \$3.00.

WORN OUT VALVES CAUSE OF TROUBLE

TWO PUMPS ARE NOW SUPPLYING PLENTY OF WATER

Such good work has been done at the pumping plant, during the past week, that the much-shamed Jack pump and turbine is now supplying water to the city. The turbine and the two old pumps, which had been out of service for some time, are now in good shape and are supplying water to the city.

Although it was stated last week that the Jack pump was out of service, it is now in good shape and is supplying water to the city. The turbine and the two old pumps, which had been out of service for some time, are now in good shape and are supplying water to the city.

The Jack pump was out of service for some time, but it is now in good shape and is supplying water to the city. The turbine and the two old pumps, which had been out of service for some time, are now in good shape and are supplying water to the city.

AT THE LYCEUM.

"A Turkish Masque" the ball at this popular house for the first half of the week is one surrounded by a great deal of mystery and at the same time there is enough to keep the audience laughing all of it. Wally Brooks the new producer is seen for the first time playing a lead and the part is that of a road fellow being imposed upon by an over officious mother-in-law. The comedy for this will be in the hands of chair and Rogers both doing Dutch, while the part of the "Turkish Masque" will be looked after by Miss Lane who will also have several very choice songs to offer. The songs and dances for this will have been very carefully prepared by Mr. Brooks who promises something new in both of the bills to be presented this week.

"Forty-five Minutes from Broadway" with its catchy music and its wealth of bright stage dialogue, will be the attraction at the Lyceum theatre on Thursday, September 18.
